

SHIVANSHU RAWAT

Dwarka, Delhi – 75 | +91 9625642108 | shivanshur62@gmail.com | LinkedIn | Portfolio

SUMMARY

B.Tech graduate in Information Technology with hands-on experience as a Data Science Intern at CBRE (Sales Management, Gurugram). Skilled in the MERN stack (MongoDB, Express.js, React.js, Node.js) and passionate about AI, Machine Learning, and LLMs. A quick learner with strong problem-solving and analytical skills, committed to building innovative, data-driven software solutions.

EXPERIENCE

CBRE — Data Science Intern *Feb 2026 – Ongoing • Gurugram, India*

- Designed and built an end-to-end data extraction pipeline in Python (Pandas, NumPy, Openpyxl, Tqdm, EasyOCR, Selenium) to scrape and structure RERA data for Maharashtra, Gujarat, Delhi, and West Bengal.
- Built a React-based fuzzy-lookup tool that matches abbreviated/inconsistent text entries to their full forms using fuzzy string-matching logic.
- Automated a Google News scraper (TypeScript, Python, Selenium) that reads company names from Excel and surfaces growth-related keywords (Growing, Hiring, Expanding), paired with an interactive frontend.

Culture Holidays Pvt Ltd — Quality Analyst Intern *Jul – Sep 2025 • Gurugram, India*

- Tested core flows (login, payment gateway) on takeyourbreak.com and reported issues to the manager with improvement suggestions.
- Created and tested email templates using Postman.

Coding Nijas — C++ Certification Program *Jan – Jun 2025 • Delhi, India*

Airports Authority of India — Cisco Packet Tracer Training *Dec 2023 • Delhi, India*

PROJECTS

India RERA Data Extraction (CBRE) *Feb – Jul 2026*

Python — Pandas, NumPy, Openpyxl, Tqdm, EasyOCR, Selenium

- Designed and built the extraction pipeline independently, scraping and structuring RERA data for Maharashtra, Gujarat, Delhi, and West Bengal.

Google News Scraper (CBRE)

TypeScript, Python, Selenium

- Automated Selenium-based scraping that reads company names from Excel and searches Google News for growth signals (Growing, Hiring, Expanding), with an interactive frontend.

AI-Powered iPad Calculator *2 months*

Tailwind, Next.js, Python, TypeScript, Git

- Developed a Next.js/Tailwind frontend connected to a Python backend to power AI-based calculations using the Gemini LLM.

SKILLS & CERTIFICATIONS

Technical Skills: C++, Python, JavaScript, TypeScript, Full-Stack Development, Data Structures & Algorithms, Database Management, React, Node.js, MongoDB, SQL, Git/GitHub, Data Extraction, LangChain, Vercel/Render

Certifications: Software Engineering Fundamentals (Electronics & ICT Academy, IIT Guwahati) • Python Certification (Google) • MongoDB 3 & Scalable Applications (Udemy) • Programming with JavaScript (META) • Bootstrap (Great Learning) • React JS Fundamentals (Great Learning) • Leveraging AI at CBRE – Level 1 (Global AI Training)

EDUCATION

Bhagwan Parshuram Institute of Technology, GGSIP University *Delhi, India*

B.Tech, Information Technology — CGPA 7.78 (74%) *2026*

CBSE — 12th Grade, 87% *2022*

CBSE — 10th Grade, 87% *2020*
